1990

UPDATE ACTIVITY SUMMARIES.

To: Chris
cc: Kelly
From: Peter
Date: January 25, 1991
Subject: Year-end reports

There will be a delay in producing the year-end reports that you requested, due to our current system problems. Our hard disk is currently at the office a service technician; therefore, we cannot access the MacSub data file to get any reports at this time.

As a result of the service technician's investigation, we will be ordering a new hard drive next week. Also, MacSub has our data file and is correcting any problems in the database caused by the defective hard drive. This may take up to a week.

We could run the reports from a back-up of the (as of yet uncorrected) data, when we get our new hard drive. We are expecting to have that drive by Wednesday. However, the accuracy of these reports would be questionable. I recommend we wait until we have a non-corrupted database.

Attached are earned income reports from MacSub from 1990 (these were run before the hard disk was sent to the technician). You will note that some of the figures are incorrect. Rolf at MacSub will be looking into correcting these figures as he fixes the database.
